

HY-PER-LUBE CORPORATION

HIGH PERFORMANCE PRODUCTS FOR OVER 50 YEARS

Press Release May 17, 2006
For immediate release

Hy-Per Lube Corporation Announces release of new Octane Boost, **Max Octane**.

Hy-Per Lube Corporation is pleased to announce the addition of a new high performance octane boost to its line up of oil supplements and fuel additives. **Hy-Per Fuel Max Octane** is the newest addition to the line of high quality products for high performance engines. **Max Octane** is a highly concentrated formula, when used as directed is will increase the octane of gasoline from 5 to 7 numbers. It contains the only proven octane boosting additive, **MMT** (*Methycyclopentadienyl Manganese Tricarbonyl*). **Max Octane** is formulated for racing applications and automobiles that require a higher octane fuel then can be found at gas stations.

Regular use of **Max Octane** will:

- Increase horsepower and torque
- Improve acceleration times
- Remove power robbing deposits from injectors, intake valves and combustion chambers
- Help prevent valve seat recession in high performance engines
- Eliminate engine knock and ping
- Stabilize gasoline against gum formation during storage

About Hy-Per Lube

Hy-Per Lube Corporation manufacturers a complete line of oil, fuel and coolant additives for high performance and high mileage engines.
