

FREQUENTLY ASKED QUESTIONS

HY-PER LUBE

OIL SUPPLEMENT

P/N HPL201

Is Hy-per Lube compatible with synthetic oil?

Yes, Hy-per Lube works with all types of engine oils including petroleum, synthetic blends and full synthetics.

Will Hy-per Lube reduce valve train noise?

In most applications it will reduce valve train or lifter noise but there are certain times when it cannot reduce noise where a mechanical fix/repair is required.

Can I use Hy-per Lube in a newer engine? What will be the benefits?

Yes you can use Hy-per Lube in new engines. The main benefit you will receive is long term reduced wear.

Is Hy-per Lube safe for turbocharged engines?

Yes, it is especially good for turbocharged engines because they run hotter and work harder.

Can Hy-Per Lube be used in automatic transmissions?

No, it cannot be used in automatic transmissions.

What are the dosage recommendations?

Gas Engines—Replace 1 quart of oil with 1 quart of Hy-per Lube in 4 to 6 quart systems. Larger systems use 20% by volume. (Up to 2 quarts in worn high mileage engines)

Diesel Engine—10% by volume

Manual Transmissions—20% to 40%

Differentials—20% to 40%

Gear Boxes— 20% to 40%

Assembly Lube— 100% Hy-per Lube
